-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2665

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 29, 2005 has been entered.
2. The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: The newly added claim limitation of "Layer 2 registration" as in claim 1, "Layer 2 pre-registration" as in claim 21, and "Layer 2 Serving GPRS Support Node (SGSN) pre-registration" as in claim 40, each does not have proper antecedent supported by the specification disclosure.
3. Claims 1-45 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The newly added claim limitation of "Layer 2 registration" as in claim 1, "Layer 2 pre-registration" as in claim 21, and "Layer 2 Serving GPRS Support Node (SGSN) pre-registration" as in claim 40, each contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. To be more specific, only page 10, lines 10-11 in the specification disclosure briefly mention "a Layer 2 Pseudo Length

Art Unit: 2665

data field 402", which was not sufficient to support the newly claimed feature of "Layer 2 registration" or "Layer 2 pre-registration" for the enablement.

4. Applicant's arguments, see amendment, filed December 29, 2005, with respect to claims 1-45 have been fully considered and are persuasive in view of the newly added claim limitation. The 103(a) rejections of claims 1-45 have been withdrawn. However, since the newly added claim limitations have introduced the new matter, the applicant is advised that all previous 103(a) rejections regarding claims 1-45 will be re-introduced if the new matter rejection cannot be resolved, and the next office action will be final with the re-introduction of previous 103(a) rejections.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hasan et al., Laiho, and Wang are additionally cited to show the feature of call control in packet switched radio telecommunication network comprising mobile station, base station, and Serving GPRS Support Node (SGSN) similar to the claimed invention.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alpus H. Hsu whose telephone number is (571)272-3146. The examiner can normally be reached on M-F (5:30-3:00) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Wellington Chin can be reached on (571)272-3134. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
